Email: iteshxt@gmail.com
Mobile: +91-6262803216

SKILLS

Languages:	C, C++, Java, JavaScript, Python
Frameworks:	React.js, Next.js, Node.js, Flutter, React Native, Flask
Tools/Platforms:	MySQL, MongoDB, Git, Github, Docker, Vercel, AWS(EC2, S3), Linux
Machine Learning:	Pytorch, Fine-Tuning(LoRA, PEFT), RAG, On-Device Deployment, LangChain
Soft Skills:	Problem-Solving, Rapid Adaptability, Strong Work Ethic, Self-Driven Learning

EXPERIENCE

- **Sutr Clothing – Online Clothing Brand** | [Link](#)

Apr'25 – Nov'25

Full Stack Developer

- Developed scalable microservices for production deployment, serving 100+ monthly customers with stable order and payment workflows
 - Implemented secure payments and real-time logistics integration via Razorpay and Ekart service endpoints with reliable error handling, reducing payment failures and delivery delays
 - Built and optimized a modular admin dashboard and responsive User Interface following MVC principles, Tailwind CSS, and reusable components, reducing UI defects through unit testing and validation

PROJECTS

- **FitCheckr – Virtual Try-On System** | [Link](#)

Sep'25

- Engineered an AI-powered virtual try-on system powered by Gemini 2.5 Flash-Image and Next.js with modular backend services and image-processing pipelines
 - Optimized inference and API workflows, achieving average image response times under 3 seconds across 95% of requests for real-time previews
 - Shipped and deployed a Chrome extension integrating secure service interfaces for instant virtual try-ons across major e-commerce platforms and marketplaces, driving higher click-through and try-on usage rates
- **DiaChat – Fine-Tuned AI Chat Companion for GenZ** | [Link](#)

Apr'25

- Curated and engineered a high-quality NLP dataset on Hugging Face to train a personality-driven conversational model with empathetic, Gen Z-style dialogue
 - Fine-tuned Gemma-3 1B Instruct with PyTorch and Unsloth, optimizing inference to achieve ~40 tokens/sec with low-latency streaming responses
 - Deployed on-device model inference pipeline by converting weights to MLC format and compiling WebAssembly runtimes via WebLLM and WebGPU for low-latency browser inference
- **Dia Moderator – AI Powered Multi-platform Moderation System** | [Link](#)

Mar'25

- Designed and architected a centralized moderation system for Discord, WhatsApp, and Telegram through scalable RESTful APIs and modular architecture, enabling consistent policy enforcement
 - Automated profanity filtering, spam detection, and progressive warning pipelines for automated and scalable community management
 - Integrated Google Gemini services to generate summaries and contextual replies, supported by a real-time dashboard with secure QR-based authentication

CERTIFICATES

- Build Generative AI Apps & Solutions with No-Code Tools | [Link](#)

Sep'25
- Mobile Application Development using Flutter | Cipher Schools | [Link](#)

Jul'25
- Cloud Computing | NPTEL | [Link](#)

Apr'25
- Computer Communications Specialization | Coursera | [Link](#)

Oct'24

EDUCATION

- **Lovely Professional University**

Phagwara, Punjab

Bachelor of Technology - Computer Science & Engineering; CGPA: 8.48

Aug'23 – June'27
- **Kiddys Corner Hr Sec School**

Gwalior, Madhya Pradesh

Intermediate; Percentage: 78

Apr'21 – Mar'22
- **Amar Public School**

Gwalior, Madhya Pradesh

Matriculation; Percentage: 90

Apr'19 – Mar'20
